

ANDERSON MUNICIPAL AIRPORT-DARLINGTON FIELD TERMINAL AND CORPORATE HANGAR FACILITY

Project: Terminal and aircraft hangar facility.

Construction Cost: \$2,440,000.00

Funding: Local and AIP Funds

Summary: The 9200 square foot, two-story terminal sized to accommodate FBO services, retail and the airport management for at least the next couple of decades. Connected to the terminal is a corporate aircraft hangar (100 feet by 150 feet) designed to house at least the Gulfstream IV. The rolling horizontal door has a clear opening of 100 feet in width and 25 feet in height. The project included new water and sanitary sewer distribution service funded locally and a 27000 square yard apron constructed in two phases with AIP funds.
